

HEROES WEAR HAIX®

Heel bend

HAIX®-AS-System

Upper Material: A combination of soft and supple suede, hydrophobic, breathable, 2.0 – 2.2 mm thick and nylon fabric

GORE-TEX® Laminat with XCR®-Product Technology; 3-layer GORE-TEX® laminate, waterproof and highly breathable. Abrasion-resistant lining with optimized climate comfort, especially for flexible alternating inside and outside use.

Insole: TEXON (fleece) insole absorbs sweat and supports ankle

Footbed: Insole, anatomically formed, exchangeable, washable, very good moisture absorption, dries quickly

Sole: Rubber/PU sole with a sporty street/terrain tread. Optimal step and bend behaviour due to sporty toe and heel rounding. The low-weight PU, impact-absorbing wedge ensures outstanding walking characteristics. Oil and gasoline resistant, non-marking. Compliant with EN ISO 20347:2004

HAIX®-Climate-System: Climate System with Micro-Dry lining at top of leg

HAIX®-AS-System: Arch Support System; Optimal support and shock absorption in the arch provided by an anatomically formed last. Improved heel and arch design provides support while securing the foot, allowing for increased comfort and range of motion in the spacious toe box

Others: Light weight, leather reinforcement in toe and heel areas, additional leather reinforcement on both sides of the arch which extends below the edge of the sole. High heat-resistant fixing of the sole.

Increased stability of the sole by means of an extensive plastic joint. This avoids punctiform pressure on the sole of the foot f.ex. by small stones.

AIRPOWER® P9 DESERT

Art.-Nr. 206206

CE EN ISO 20347:2004 O2 HI CI HRO WR FO

Leather/textile combination, waterproof and extremely breathable with GORE-TEX® XCR-System, HAIX®-Climate-System, HAIX®-AS-System, Leg height 17 cm, antistatic,
